

## Senior and Junior Geoscientists wanted - ABM Resources NL

ABM Resources NL is a well funded gold explorer intent on unlocking the potential of Australia's Final Frontier – the Tanami / Arunta Provinces in the Central Desert of the Northern Territory. The Company has several discoveries pending drilling to resource. In addition the Company is one of the largest landholders in Australia and in 2011 will test several regional targets.

Up to 4 staff-positions are available for geoscientists with various levels of experience.

Successful candidates will have:

- A degree or post-graduate degree in geology or a related discipline.
- 2 to 10+ years experience in minerals exploration (however, ambitious, top ranking graduates should also consider applying).
- A natural curiosity for science and exploration.
- An enthusiasm for discovery.
- An open and inquisitive mind.
- An ability to embrace new technologies.
- The ability to work in a collegiate team environment.
- Enjoy spending time in remote areas on reconnaissance, geophysical, sampling and drilling campaigns.
- An understanding of or open-minded nature to liaison with indigenous communities.

Positions will be Perth or Northern Territory based.
